PREFACE.

In this (the Fourth) Edition of our Standard Paper Money Catalogue, it has been our endeavor to present to the public the most comprehensive list of all the classes of Paper Money issued in this country, which have become uncurrent as mediums of exchange and have therefore entered the domain of the collector of this branch of Numismatics.

The extent and diversity in character of the different issues are both great and interesting. Beginning with the crude efforts of the printers of early Colonial times, we note the gradual advance in design and execution down to the beautiful engraving of the Bank Notes current at the outbreak of the Civil War — some of which, in taste and beauty have never been surpassed. The style and quality of the material, too, have also undergone remarkable changes. The earlier issues were on coarse brown paper or cardboard — then tissue paper was used — and in recent times the ingenuity of the counterfeiter was baffled by the insertion of silk threads or mica in the material.

The appearance of the Colonial or Continental Notes may be judged of by the illustration of examples from different States, given in the Catalogue. The general type of those times is similar in character — and a glance at one affords a good idea of all. It need scarcely be remarked that the infancy of American typographic art is clearly exhibited in these productions.

The number of Banks and other Institutions which issued Bills and Promissory Notes during the period from the beginning of the present century to the war of 1861-5, throughout the United States, is enormous. We have designated these and the denominations of the issues to as full an extent as our sources of information admitted. There are doubtless many others hoarded away in nooks and corners, which will perhaps be unearthed at some later time. But the great majority of those we enumerate have been destroyed, and are therefore unobtainable by the collector. Indeed, any collection that comprised all would assume vast proportions.

The same remark applies with still greater force to the incongruous and almost endless series of promises to pay, which came into existence during and through the exigencies of the War of the Rebellion. We offer the most extensive list of these issues ever before attempted — and still it is very far from complete. It is probable it never will be.

The currency authorized by the Confederate States — individually and as a whole, is, of course, well defined — and the acquisition of the larger portion of the Series a matter of little difficulty.

The collection of United States Fractional Currency has attractions for many. The usual enumeration is given, with full description of the varieties.

We have also supplied a list of the principal Uncurrent Bills of Canadian Banks.

The increase in the number of collectors of this branch of Numismatics has been so remarkable of late, that we have felt impelled to meet the demand for a comprehensive enumeration of the various issues. This edition contains considerably more than double the amount of matter in any of our previous Paper Money Catalogues; while by a comparison with any other ever published, it will be at once apparent that it has no equal in extent of description and detail.

The compilation, we think, will be found of great utility to the collector. To the advanced student it will aid in comparison and classification — while to the beginner it will serve as an indicator of the fields from which he may select the particular lines to follow.

We have to announce that we have been large buyers of this class of money, and our stock contains as complete an assortment, both as to quantity and variety, as it is possible to obtain.

NOTE. — Unsigned notes printed on blue paper are occasionally met with; they were supplied to the banks to compare with suspected bills; they are usually dated July 22, 1776. The series of May 20th, 1777, and April 11, 1778, were withdrawn, and after destroying $19,848,268, the remainder was repudiated by the government on account of numerous counterfeits in circulation, although they are quite easy of detection. For much interesting information see the *American Journal of Philately* for June 1 and 15, 1888.

* Notes marked with an asterisk on the preceding pages are not known in collections at present, our list being taken from the State records of their issue.

In regard to prices, we quote those usually in stock; collectors in ordering, would do well to make their list considerably in excess of the amount they enclose.

OLD UNCURRENT BANK BILLS.

THE following list comprises the Note issues of Banks and Banking Institutions in existence prior to the creation of the National Bank System — and which have ceased to be current since that time. Many of these Banks lived but a short time, having either failed or gone into liquidation. The list is complete so far as our sources of information can make it; but it is probable that other Banks of issue existed, of which there are few or no traces left.

Some of the Bills date back early in the century, and the greater part of them are unobtainable in any condition or at any price. We do not present the list as representing our stock, as it is impossible to state at any given time, what bills may or may not be passing through our hands. Where the denominations of bills of a Bank are shown by larger figures (thus: 1, 2, 3, 5), it is to be understood that specimens of such particular denominations have come under our personal notice, or are known to be in collections. The existence of the others is a matter of record only. The repetition of a denomination as 5, 5, 5, indicates that there are so many distinct varieties of that denomination.

Our list embraces Canadian Banks, and covers bills withdrawn from circulation by Banks still existing.

The more common issues, which are well known to Collectors, are quite plentiful and will continue to be for years to come. These we supply at 10 cents each. The scarcer notes are sold at 15, 20 cents and upwards, according to condition.

A compilation of this extent, as before suggested, must necessarily be incomplete. We hope that through our own researches, and the kindness of Collectors and friends in reporting anything not appearing here, we may be able to include a considerable number of additions in our future publications.

Space will not admit of any description of the bills nor mention of the dates they bear.

"WILD CAT" ISSUES.

THE following issues, popularly known as "Wild Cat" Currency, comprise notes of cities, corporations, etc., issued in the form of Bank Bills, and generally resembling them in style of engraving, and, with a few exceptions, in size. They are arranged, similarly to the Bank Bills, according to States and places, with the denominations known to us of each issue. The greater part of them bear date prior to the War of the Rebellion.

As in the case of Bank Bills, some specimens are common, and are to be had in large quantities, in good condition, at very moderate prices. Many on sale between 10 and 15 cents.

Figures in larger type denote the particular denominations that have passed through our hands, or may be found in the most important collections in the country, to which we have had access.

FOURTH EDITION.

Colonial, Continental, U. S. Fractional Currency, and **Confederate States** issues. It will also contain the most complete list of **Broken Bank Bills** and the issues known at various times as "**Wildcat,**" "**Red Dog,**" etc., that careful research of years has enabled us to obtain. There will also be a list of private issues (which were commonly called "**Shin-plaster,**" following the period of Hard Times). It includes those uttered by merchants and individuals from the earliest period following the Continental series to the close of the war of the Rebellion. The Hard Times period, 1834 to 1841, and the war of the Rebellion issues North and South (the latter includes State issues), furnish a large portion.

·· SQUARE COIN BOXES ··

THIS is our latest device for the keeping of Coins in drawers or cabinets, and in many respects, the best that has ever been offered to collectors. In the desirable feature of the greatest economy of space it excels all others. Ample room is provided at the top to give the chief attribution or heading, while the reverse side admits of detailed description, in separate ruled divisions. By this system, the coin and its box can be transferred from one position to another, as new pieces are acquired, and arranged in its proper place, chronologically or otherwise.

As far as possible, it is better to group coins according to size; other plans take more space and do not present so attractive an appearance.

These holders are of superior manufacture, of strong card board, with wooden tops or headings.

We are confident those who try them will share with us in the opinion that they are

"THE BEST THING OUT."

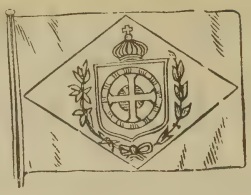
THE MERCHANT FLAGS OF THE WORLD.

AUSTRIAN-ITALY.



BRAZIL.

FINLAND.

Uncolored fac-similes, showing size and style.

"These brilliant colored Flags faithfully represent the emblems of the different nations of the earth, and as such are a great acquisition to any Album, while the exceedingly low price (25 cents) at which they are published places them within the reach of all."

"This Chart, containing many Flags never before published, has been collected with great care, and can be relied upon as being strictly accurate, and by its aid the nationality of any ship may be easily determined, as it gives the Flag of the NATION instead of the gorgeous piece of bunting which simply belongs to one family, and is seldom, if ever, seen out of their country."

"These sheets possess three great advantages (to the Collector) over any other we are acquainted with, which consists in the facts that there is only one Flag to each country, more nations represented than have heretofore been given, and only Flags of those countries which issue postage stamps. These we consider of great importance to those who buy them to put in Albums, as they can use them instead of having to throw away half the purchase. The colors are very brilliant, and withal correct, and being printed on very thin paper, the book is not swelled to an inordinate thickness."

Beautifully and correctly printed in FIVE colors on very thin paper for Albums.

PRICE ONLY 25 CENTS.

THE COATS OF ARMS OF THE WORLD.

This magnificent chart contains accurate representations of the armorial bearings of the nations of the world, all of which are beautifully and correctly emblazoned in gold and silver, and their true colors.

As a sheet for framing, it is an acquisition to any drawing room, and is indispensible in the library or study.

As a guide to determine the nationality of foreign coins or postage stamps (most of which bear the issuing countries' arms), it will be found of great service. While cut up and inserted in stamp albums, they will be found to add much to the appearance of the page.

The cut herewith shows an uncolored fac-simile showing size, etc., of the Coat of Arms of Russia.

Printed on fine thin paper for albums.

AMERICAN COLONIAL HISTORY

ILLUSTRATED BY

Contemporary Medals

BY THE LATE

C. WYLLYS BETTS.

EDITED, WITH NOTES, BY

W. T. R. MARVIN AND LYMAN H. LOW.

The volume contains in all 340 pages, and *describes* 625 *Medals*, illustrated by nearly 200 *engravings of their obverse and reverse dies*. Translations of the Legends are uniformly given, with explanations of the abbreviations, whenever decipherable. The Chapters treat of the Medals belonging to the periods of discovery; of colonization; of intercolonial wars; those of the period from the Peace of Paris to the Revolution; those of the Revolutionary period itself; and finally of those relating to the acknowledgment of the independence of the United States. Separate chapters are also given to the numerous pieces commemorating the exploits of Admiral Vernon (of whom a fine engraving, a reproduction of a rare old contemporary print, forms the frontispiece to the volume), of this series 167 being described, with a table of reverses by which they can be readily identified; and to the Proclamation pieces of Ferdinand VI and Charles III of Spain, with incidental references to those of the other Spanish Kings, so far as they relate to their American possessions. Beside these, the pieces satirizing John Law and his Mississippi scheme; those relating to the conflicts between the Kings of France and England in the New World, and to battles and treaties affecting their colonies on this side of the ocean; the early Dutch Medals bearing on the efforts of the United Provinces to acquire a foot-hold on this continent, and the later ones on the events which made Holland a virtual ally of the struggling colonies during the Revolution; the numerous Medals given to Indian chiefs by France and England; and the interesting series presented to the heroes of the Revolution by Congress, as well as those known as Peace Medals, are all included.

PRICE $3.00.

Will be sent by mail, prepaid, on receipt of price.

NOTE.—Unsigned notes printed on blue paper are occasionally met with; they were supplied to the banks to compare with suspected bills; they are usually dated July 22, 1776. The series of May 20th, 1777, and April 11, 1778, were withdrawn, and after destroying $19,848,268, the remainder was repudiated by the government on account of numerous counterfeits in circulation, although they are quite easy of detection.

NOTE.—Unsigned notes printed on blue paper are occasionally met with; they were supplied to the banks to compare with suspected bills. The series of May 20th, 1777, and April 11, 1778, were withdrawn, and after destroying $19,848,268, the remainder was repudiated by the government on account of numerous counterfeits in circulation, although they are quite easy of detection.
